

# Bethany Piziks, DDS

**Wish you knew where to find the solid ground of relief to reduce/manage the strain of the dental workplace?**

Dr. Bethany Piziks is committed to helping dental professionals achieve balance, peace, and prosperity in both their personal and professional lives. As a clinical dentist with over 20 years experience, Bethany knows the daily struggles and frustrations that come with owning and/or working in a dental practice. After receiving professional coaching herself, Bethany discovered that helping others find the same satisfaction was her true life's calling.

Bethany combined her passion for dentistry with her love for horses as a Certified Equine Gestalt Coach. Combining the wisdom of horses and the positive effects of coaching, Bethany facilitates deeply impactful retreats and courses that put restoring the heart and spirit center stage. Helping others discover their own joy and purpose is at the core of what Bethany does and she is now in the business of restoring the human spirit instead of teeth!

Bethany speaks for dental audiences across the nation. She is a frequent guest on industry podcasts and has been published in Dental Economics, Dentistry IQ, Apex360 and other industry publications.

“

*Dr. Piziks' presentation to the Livingston District Dental Society was both inspiring and memorable. The format of Dr. Piziks' presentation kept our group engaged, intrigued and inquisitive as many challenging questions were presented and answered without falter. The presentation was specifically tailored for our group and left us feeling motivated and renewed.”*
